RELAXED ELEGANCE

This project has a relaxed and effortless vibe, blending modern simplicity with cosy comfort. Favouring natural materials, soft textures, and an understated palette the scheme creates spaces that feel inviting and unpretentious. The vibe in the moodboard is both laid-back and refined. This approach prioritises comfort and liveability while still infusing spaces with a sense of sophistication and charm.

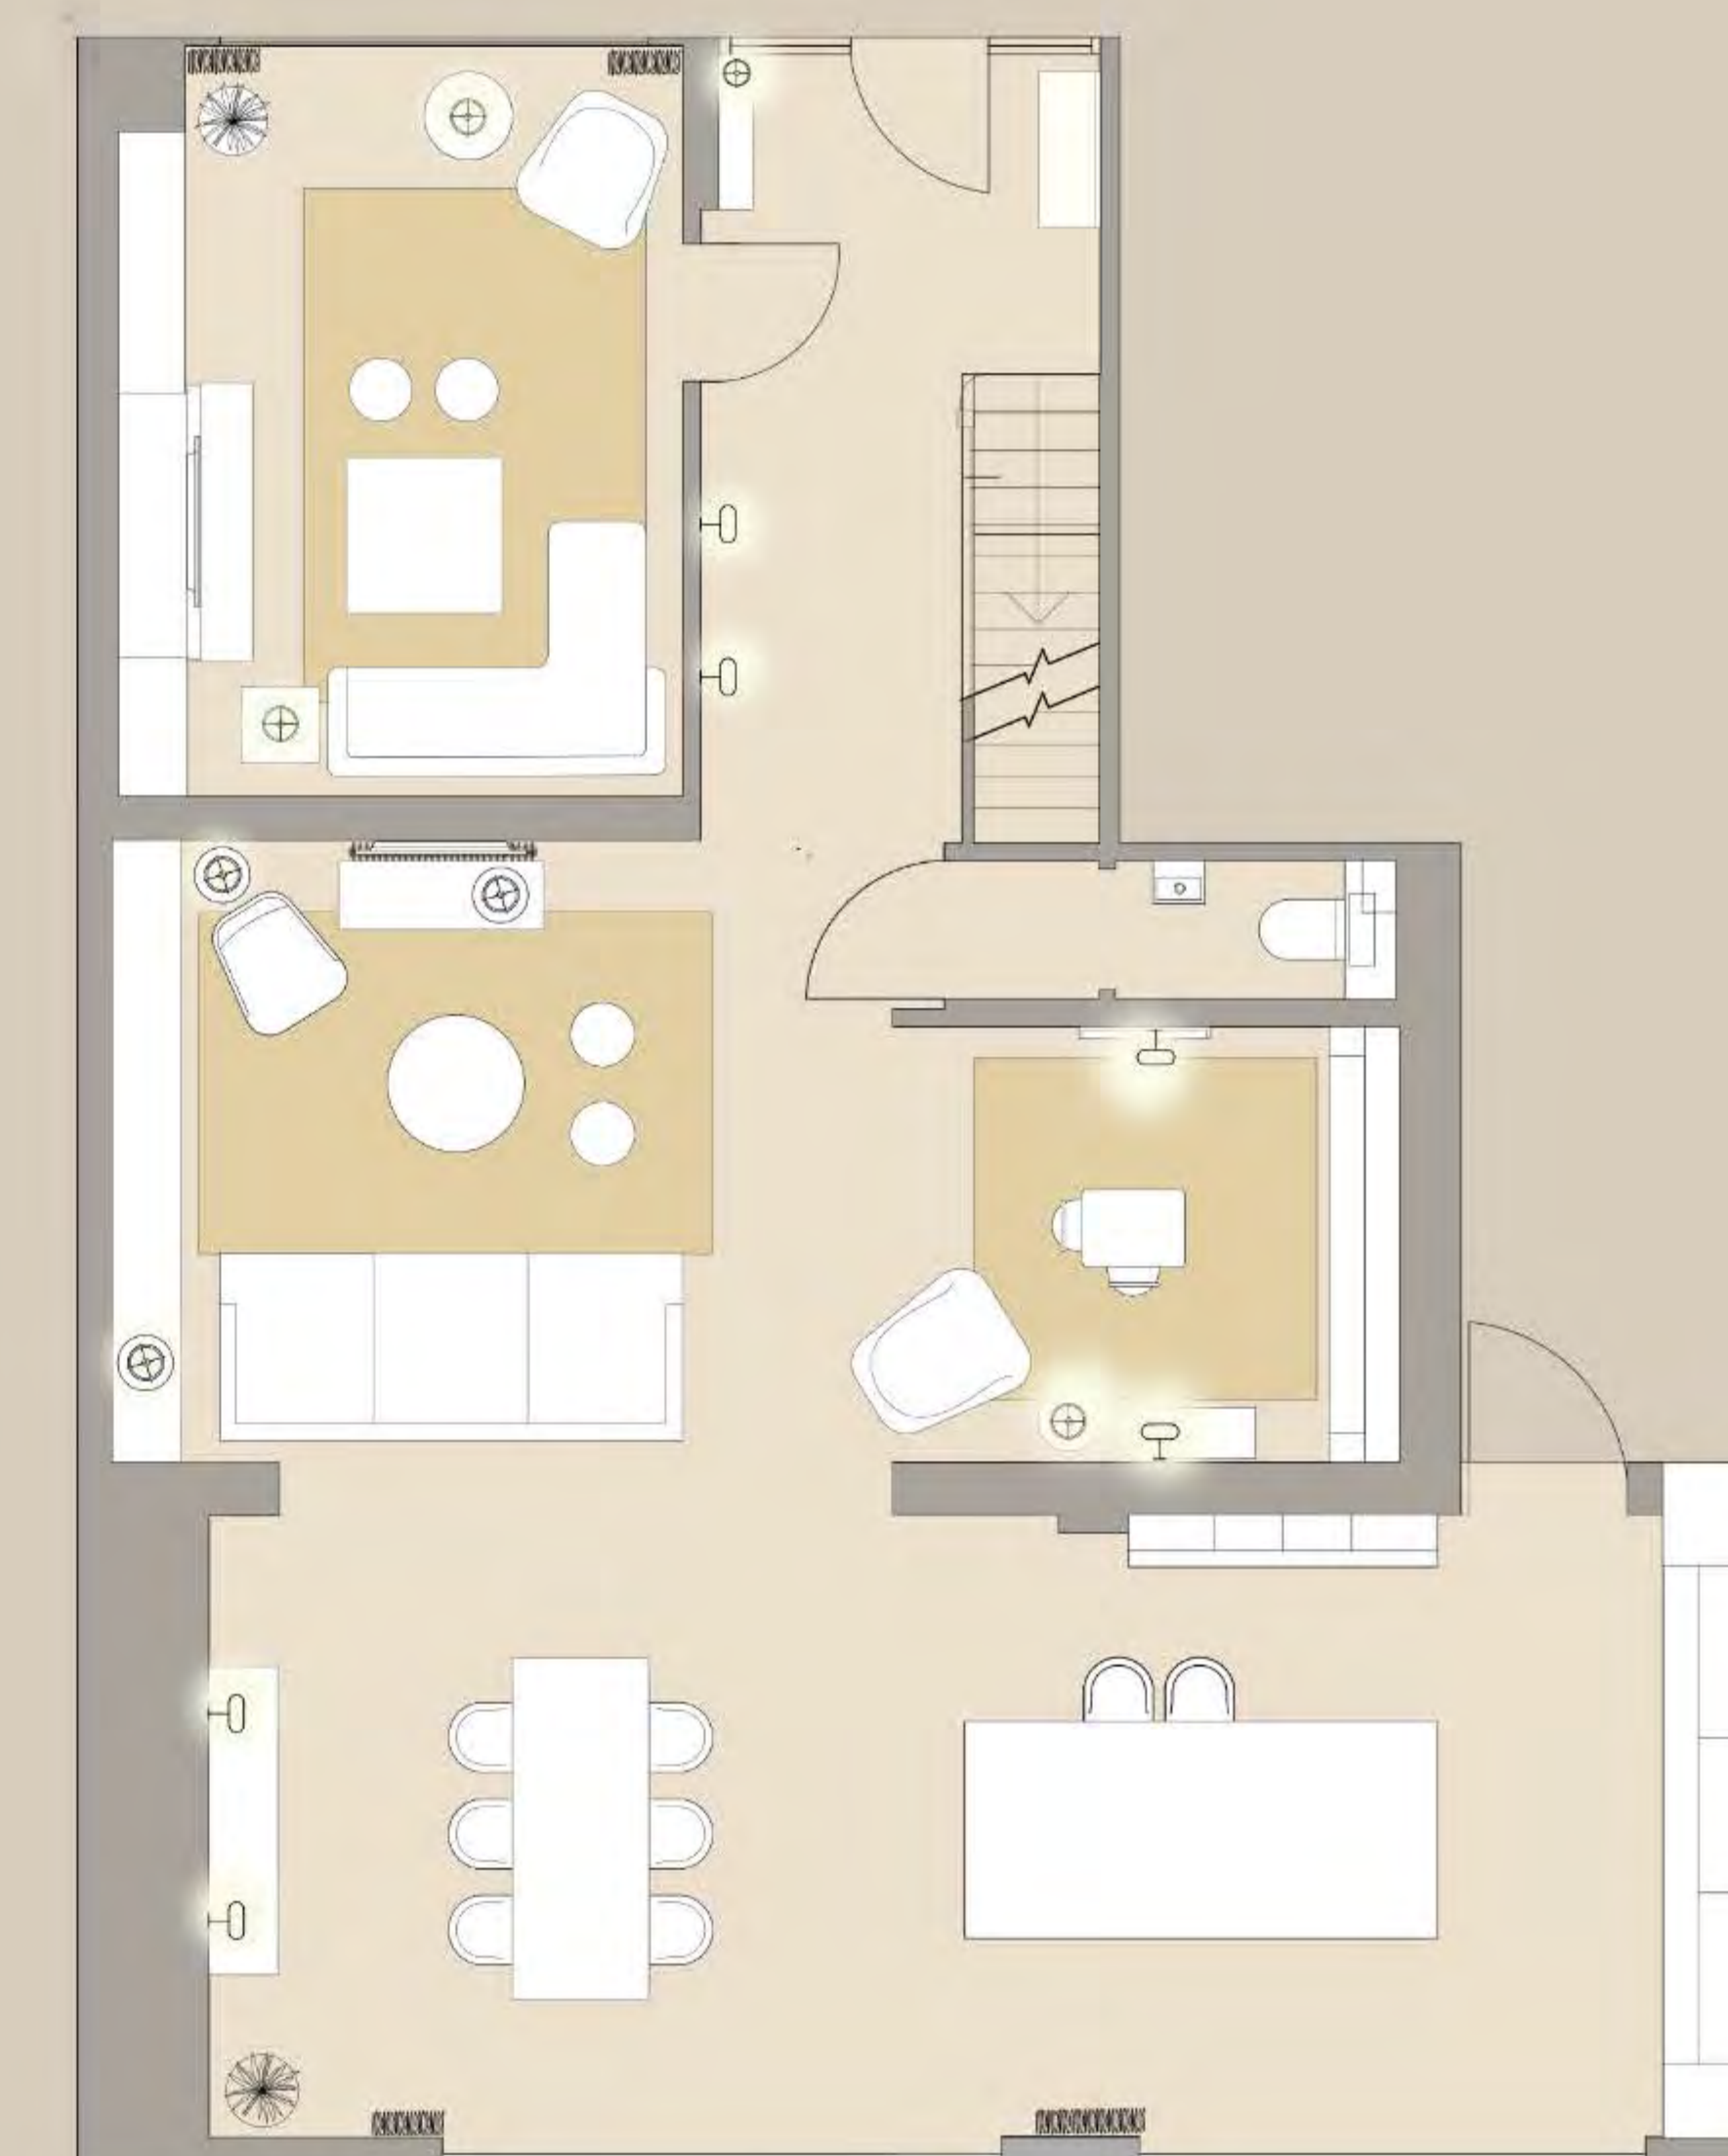

MATERIALS:

By integrating rich velvets, linens, and sisal, the design scheme adds warmth and texture to the space.
